Swanny's Scribbles

Good afternoon and welcome to The Scholars Ground for today's visit of Stocksbridge Park Steels. We extend a warm welcome to the management, players and directors from Stocksbridge and hope they enjoy our hospitality.

We approach today's game searching for consistency. The hardest element to master in football. I maintain that our level of performance is not bad at all, however, there are inconsistencies. Not just from game to game, but within a 90 minute performance at the moment it feels like we can hit another notch in our level to make us more complete.

We have had a week of two indifferent performances. We were very sluggish in our home game against Stamford last Saturday and were deservedly 2-0 down at half time. When we showed a little more tempo and bite to our game, in the end we were unfortunate not to have won it.

Then on Tuesday the opposite. I thought we were excellent in the first half and played on the front foot and with aggression and tempo. Coming out in the second half at 1-0 up we didn't get going and were hit with a sucker punch straight away. That set the tone for the rest of the half and we looked a little toothless even against 10 men.

Despite the ups and downs, I do feel that we are not far away from turning in an accomplished performance. We need to concentrate on what we do well, and do this in larger and larger periods of games. We have competed and been in every game this season but need to get the balance right so we come away with positive results more consistently.

The work rate of the players is admirable. One criticism that cannot be labelled at them is that. We need to learn how to manage games a little better at times but if we keep that level of work ethic and continue to improve our quality and decision making then we will pick up results.

Enjoy the game!

Stocksbridge Park Steels - History

The club was created in 1986 with the merger of Stocksbridge Works F.C. and another Stocksbridge Club Oxley Park Sports F.C. Stocksbridge Works had the ground and only one team and Oxley Park had three teams and no ground.

In the early years 1986-91 the new Club ploughed all its resources into the Bracken Moor Stadium so as to meet ground grading criteria and enable the Club to rise through the non-league pyramid system.

There was an opening of a social club, refurbishment to the dressing rooms, erection of floodlights, the building of new stand and extension to the social club new canteen area, making the ground the best junior stadium in South Yorkshire, which currently hosts 8 to 9 Sheffield and Hallamshire County FA Finals.

The appointment of Mick Horne and Trevor Gough as Team Manager and Assistant in February 1991 heralded a period of success to rival the works in the 1950/1964 period. Under Mick and Trevor, Steels started their run to the present Unibond League.

1993/4 saw steels win Premier division of the NCEL, but Steels celebrations were cut short when the ground improvements necessitated were not at an advanced enough state to allow Steels to take place in the Unibond League.

The following season Steels finished in 3rd place and in 1995/96 they were runners up to Hatfield Main and gained promotion to the Unibond First Division. Steels made steady progress in the first five seasons in the Unibond League, with the highest placed position of 4th achieved in 2000/01.

In 2002 Wayne Biggins was subsequently appointed Player/Manager after a short spell as Assistant Manager, with Graham Furness as Assistant. In the 2002/03 season, Paul Jackson, equalled an FA Cup record of ten goals in one game, during the Steels 17-1 thrashing of Oldham Town.

Steels had their best FA Cup run in the 2003/2004 season reaching the fourth qualifying round eventually losing away at Shildon in November 2003 Peter Rinkcavage was appointed as Manager from Gainsborough Trinity with Paul Bradshaw as Assistant with Jason Maybury, taking over from Bradshaw in 2004.

A good season followed in 2005/2006 with the Steels, just missing out on promotion after losing to Kendal in the play-offs.

In the 2006/2007 season Steels missed out on a play-off position after being in the top three in 90% of the season. But the team finished the season on a high note beating local rivals Worksop Town in the Sheffield senior cup final at Hillsborough. This was to be the last game, with Peter Rinkcavage in charge. He along with assistant Jason Maybury, left to join Worksop Town in the summer of 2007.

Gary Marrow, along with his assistant Mark Ogle was appointed manager before the start of the 2007/2008 season, with former player Gary Ingham taking over from Ogle midway through the season. In his First season at the club, Marrow steered them to a credible 5th place losing to local rivals Sheffield F.C. in the play-off semi-final.

Steels have just been awarded the prestigious top FA Charter Standard Community Club Award (3 of 3) and representatives from most of the Clubs 22 squads were at the Presentation on August 6th when Sheffield United player Geoff Horsfield and Blades Legend Keith Edwards handed over the FA plaque. At the moment the club has 420 players either playing in a squad or being coached on a regular basis (12 Junior Boys, 3 Junior Girls and 7 Seniors).

Stocksbridge Park Steels is now acknowledged to be the top 'grass roots' Community Club in South Yorkshire. 2008/09 was a fabulous season for Gary Marrows team, having finished third in Unibond League Division 1 South they won the play-off final against Derbyshire rivals Belper Town 1-0 and were promoted to the Unibond Premier league for the first time in the club's history.

Steels supporters were in for a roller coaster debut season in the Unibond premier league, 10 games into the season while his team were top of the league, manager Gary Marrow resigned. Former Steels player Simon Collins took over but unfortunately his tenure didn't last long. Reserve manager Steve Shutt took over and guided Steels to an excellent 11th place.

The 2010/11 season started with the return of Gary Marrow as manager. Gary Marrow resigned just before Christmas during the 2011/12 season and was replaced with Chris Willcock, Darren Schofield was appointed his assistant. Willcock guided the Steels to safety that season with a little help from Mickleover Sports who were docked points for playing an ineligible player.

Willcock's second season in charge didn't start well and he was replaced by his assistant Darren Schofield who brought in the experienced defender Brett Lovell as his number two. Once again Stocksbridge managed to avoid relegation but again it went down to the wire.

The 2013/14 season started on a high with an exciting victory over Droylsden but from then on the Steels struggled, spending most of the season in the relegation zone. The club and long serving player/manager Darren Schofield parted company at the end of the season. Former Worsborough Bridge manager Chris Hilton was appointed the new boss for the 2014/15 season. Chris immediately brought in the former Emley midfielder Mark 'Willy' Wilson as his assistant and experienced former Barnsley defender Ryan Laight as player coach.

2015/16 was a successful season for Stocksbridge having their best ever run in the FA trophy eventually losing out to National side Gateshead, this was after they had beaten the holders North Ferriby in the previous round. Steels finished the league in sixth place just a couple of points behind the play-off positions and manager Chris Hilton was rewarded with a contract for the next two years.

2016/17 saw The Steels finish 4th in the league, along with another good run in the FA Trophy. Unfortunately Stocksbridge were beaten in the play-off semi-finals losing to Spalding United.

The 2017/18 season starts with Manager Chris Hilton signing a new contract. The experienced Lee Thompson becomes joint player/assistant manager with Ryan Laight.

The new season started with manager Chris Hilton signing a contract to stay with the club for the whole of the 2018/19 season.

But big changes we're just about to happen when Allen Bethell who had been the chairman since the clubs formation in 1986 announced he was going to retire due to health reasons.

Graham Furniss who had been at the club for over 20 years in different roles including assistant manager, stepped up to the chairmans job with Roger Gissing becoming the vice chairman.

The Daniel Wilkinson Foundation is a charity set up in memory of Daniel Wilkinson who died in 2016 aged 24, while playing the game he loved, from an underlying heart condition called Arrhythmogenic Right Ventricular Cardiomyopathy (ARVC).

Dan played football from an early age and joined Hull City AFC when he was 10, earning a professional contract aged 18. Loughborough University followed where he completed a degree in Accounting and Financial Management while playing non-league football. He was an athlete who enjoyed the gym and took his health and nutrition very seriously. He lived life to the full and had so much ahead of him.

Other than feeling light-headed on a few occasions in the month before he died, he had no symptoms!

SUDDEN CARDIAC DEATH IN THE YOUNG (SCD)

- SCD is the leading cause of death in young athletes during sport and the majority of deaths occur with NO SYMPTOMS or family history.
- ARVC can be found in one in every 1,000 to 5,000 young adults - IF IT IS LOOKED FOR.
- Warning signs may include light-headedness, fainting, palpitations, swollen legs, breathlessness.
- Every week in the UK, 12 apparently fit and healthy young people (aged 35 and under) die from previously undiagnosed heart conditions.
- In Italy, where screening is mandatory for all young people engaged in organised sport, they have reduced the incidence of young sudden cardiac death by 89%.

OUR MISSION

The Daniel Wilkinson Foundation has been set up to raise awareness of SCD and to provide funding towards heart screening, defibrillators and CPR/defibrillator training primarily for grass-roots sporting teams.

Tragedies can be prevented through cardiac screening. It is vital that young people are identified and treated.

Kick Off

3.00pm

After an enforced 14-day isolation, Chasetown made the worst possible start. With just 6 minutes on the clock, Rob Morgan headed beyond Curtis Pond.

It got worse for the Scholars when Pond conceded a penalty and Morgan stepped up to shoot high beyond the Chase keeper who went the right way.

Chasetown went close at the start of the second half with keeper Danny Haystead saving well from leading scorer Joey Butlin, who then put a free header wide.

Just after the hour, Oli Hayward was brought down inside the box and Jack Langston reduced the deficit from the penalty spot.

Langston was then a whisker away from an equaliser with a volley just wide of the post

Chasetown got even closer when Butlin shot on the turn and the ball rebounded off the post and luckily straight into the arms of Haystead.

It was no shock when Chasetown finally pulled level. A cross from the left found the head of Langston who superbly steered the ball beyond Haystead's despairing dive.

At the start of stoppage time, Stamford full back Joe Burgess struck the post with a long range effort. Then the Scholars almost won it when substitute Josh Cooke drilled over a low cross and a bobble meant Liam Kirton couldn't connect fully for the winner.

Date

27/10/2018

Kick Off

7.45pm

Despite leading and the hosts going down to 10 men it was Ilkeston who picked up the three points.

Chase keeper Curtis Pond was the busier of the two goalkeepers in the opening quarter of the game. He was called into action on a number of occasions as the hosts tried to exert some authority on the game.

Gradually though, Chasetown got more territorial advantage and were starting to trouble the home side.

Just after the half hour, it was the Scholars who took the lead. A deep cross from Alex Melbourne was bulleted home by the head of Connor Haddaway - his first goal for Chasetown and their 600th in Northern Premier League Division 1 football.

It took Ilkeston just three minutes to level though when Alex Troke lobbed Pond to equalise.

On the hour, Ilkeston were reduced to ten men when a late and high challenge from James Reid caught goalscorer Haddaway and the Robins player saw straight red.

Ironically, Chasetown went behind then they themselves were temporarily down to ten men. Kris Taylor was off receiving treatment for a blood injury and Joe Maguire netted from close range to put Ilkeston ahead.

The Scholars kept pushing for the equaliser and the closest they came was a cross from the right that found Liam Kirton, who chose to attempt a volley rather than a header and the chance was missed.

Club Captain talks about the first few months of the strangest seasons ever and his hopes for the season.

How you have found your move/return to the club?

I've found my move back here very easy and an enjoyable one, as I'm so familiar with the people I knew what to expect straight away with all involved at the club. As soon as Swanny got the job here and then with him bringing in Jay and the back room staff, I knew this was somewhere I wanted to be, these are the people I've spent many of years with in football plus being part of Coxy and Swanny's successful reserve sides when just starting out in men's football made it so easy to come back!

How you are finding being club captain?

I was honoured when Swanny asked me to be club captain, and although you may think coming straight in to be captain maybe a daunting feeling and could give a negative feeling to the playing squad here already, for me it's gone the opposite way as the boys have been so welcoming and positive towards me. They are a great set of lads and it's so good to come in to try and help the boys when needed and hopefully help as many of them out on their journey in the game through using my own experiences and leading by example.

Your personal hopes for the season and then the hopes of the team as a whole.

My personal hopes for the season would be to help Swanny, Jay and the back room staff to get Chasetown back challenging for things at the top end of the table again. Also showing consistency in performances and I want to help drive my team mates to achieve what they want to in the game along side with my own aspirations of getting this team into step 3.

Another major reason other than Swanny and Jay coming back was the arrival of Stephen Cook (ex Aston Villa player) as part of their back room staff. He comes with great pedigree, him being a midfield player like myself, I know I will learn things from him plus I can lean on him to gain more knowledge to make me become a better midfield player, at 31 there's always something we can learn every time we play and train.

Team goals I would say it has to be challenging for promotion as seeing the team beat higher opposition in the FA cup against Basford Utd and taking a team in AFC Telford Utd to penalties from the conference north, we know we have some talent in our dressing room so why can't we gain promotion.

I would also just like to give thanks from myself and the players to every supporter that's has came through the turnstiles at the Scholars Ground, in tough times with the pandemic going on, the fans have been amazing home, away and really shown what this fantastic club is all about, hopefully we can return the favour this Saturday and send you all home with a positive result come 5pm.

Thanks DOCKA.
